

We are a leading provider of hydraulic lifting and haulage services primarily to the marine, petrochemical, and construction industries in Singapore. In addition, we also derive significant income from the trading of lifting and haulage equipment.

From a single 10 tonne mobile crane in 1980, we have expanded our combined lifting fleet and haulage fleet size to an aggregate of 230 vehicles as at 30 December 2009, consisting of 115 cranes (with lifting capacities ranging from 10 to 800 tonnes) and 115 units of haulage equipment. We offer the largest range of lifting capabilities in the hydraulic mobile crane category and we believe that we are the only company in Singapore able to provide mobile hydraulic lifting services with lifting capacities exceeding 500 tonnes.

## Our Leasing Business

### Hydraulic Lifting Services

Provided through our lifting fleet comprising mobile truck cranes, rough terrain cranes, all terrain cranes, telescopic crawler cranes and a mobile tower crane

### Haulage Services

Provided through our haulage fleet which comprises lorry cranes, prime movers and trailers

## Our Trading Business

We are also engaged in the trading of both new and used cranes and haulage equipment by sourcing in countries such as Japan and Germany and selling them directly or through our brokers to customers or users in countries and regions such as India, Indonesia, Malaysia and the Middle East

## Competitive Strengths

- Our extensive fleet of mobile cranes
- We are an integrated one stop service provider
- We have a strong management team, supported by a team of experienced and dedicated personnel, extensive network, knowledge of industry and strong relations with suppliers
- We have an established customer base
